“ Duard has been a friend of mine for over 40 years. Not just a normal friend but one of those friends you can consider yourself lucky to have had. We shared a passion for cars and spent a lot of time together traveling across the country chasing our passion along with our wives n families especially Duard, David and myself Duard was a very kind n compassionate man always ready to help anyone who needed it. His dry sense of humor always kept me laughing. It will never be the same without his company and I will miss him more than can be told but consider myself a lucky person to have had him as my good friend and have all the memories we made together. To Phyllis,David,Karen and Lydia I send my sympathy and say cherish his memory!
