“ Hey Bubba, I miss the days of going into your office to get your help with issues at work, joke around or just spend time talking about nothing just to make the day go faster. You have been a boss, a colleague, a mentor and above all else a friend. I saw you as a father figure at work and I am sure I am not the only one. There are a lot of things in the quality lab that remind me of you and Tony so I just want to say thank you for the memories and for making me feel a part of the family. Sherry, Chad and family my sincerest condolences and I am thinking of you in these trying times. If I can ever be of service for you please just let me know.
