“ *Memories are one place we can visit, anywhere anytime; where the good memories and love will remain and live on. I knew you for such a small moment in time, but even in that time I knew you were precious. May your love always surround your family and give strength when needed. “ *Dear Maywood, Today I walked down memory lane and felt many things, from love to regret. When I was a child you laughed and played with me, as we grew older you were there. Never thought I'd lose you, always thought there was time to see each other again. Though time and distance kept us apart, you were and still are a light within my heart. I wish I could hug you and just see your face. But now I'll have just the memories from our youth to stand in your place. I will always love you Dear Sister..... Until we meet again. ~~ Uvena Carol*
